

Child Advocacy Project

I have school concerns.

How do I know if I need legal help?

Is your child or youth ...

- being sent home, suspended or expelled, with no written letter from the school?
- being kept from enrolling in school?
- getting repeat suspensions?
- being denied special education services?
- being denied an IPRC meeting?
- getting an IEP change without your consent?
- being harassed or bullied, with no action taken by the school?

When you feel shut out by your child's school and unsure about your rights and obligations under education law, contact CAP for free legal help:
